OFFGRID SOLAR SYSTEM

Type	Solar Panel arrey	Solar Battery	Inverter	charge controller	Cable with connectors	Brackets	CHARACTERISTICS:
WSO-2000W	230W*9P CS	100AH*24P CS	230/110V- 2000W Pure sine wave	60A 48V (LCD sreen)	50M/16mm2	Easy mounting as actual needs	1.It can guarantee that two consecutive rainy days of normal power supply 2.The output voltage is : 220VAC+10% (115VAC+10%) 3.The Maximum power load for the system is 80% of the peak power (for example: the maximum load for the 2KW system is 1600W) 4.Protection: battery charger protection, battery low voltage protection and overload protection, short circuit protection. Thermal protection, Fault indication function
WSO-3000W	230W*13P CS	100AH*12P CS	230/110V- 3000W Pure sine wave	60A 48V (LCD sreen)	36M/16mm2	Easy mounting as actual needs	
WSO-4000W	230W*18P CS	100AH*6P CS	230/110V- 4000W Modified sine wave	60A 48V (LCD sreen)	20M/16mm2	Easy mounting as actual needs	
WSO-5000W	230W*22P CS	200AH*30P CS	230/110V- 5000W Pure sine wave	60A 48V (LCD sreen)	55M/16mm2	Easy mounting as actual needs	

QUALITY GURANTEE

Descriptiong	Approved	Quality Guarantee
Solar Panel	CE TUV	10 years product warranty, 12 years warranty for 90% power, 20years warranty for 80% power
Inverter	CE	2 years product warranty
Controller	CE	2 years product warranty
Battery	CE	2 years product warranty
Full System		2 years product warranty
